

# MPPT SERIES

## Wonder2 SOLAR CHARGE CONTROLLER

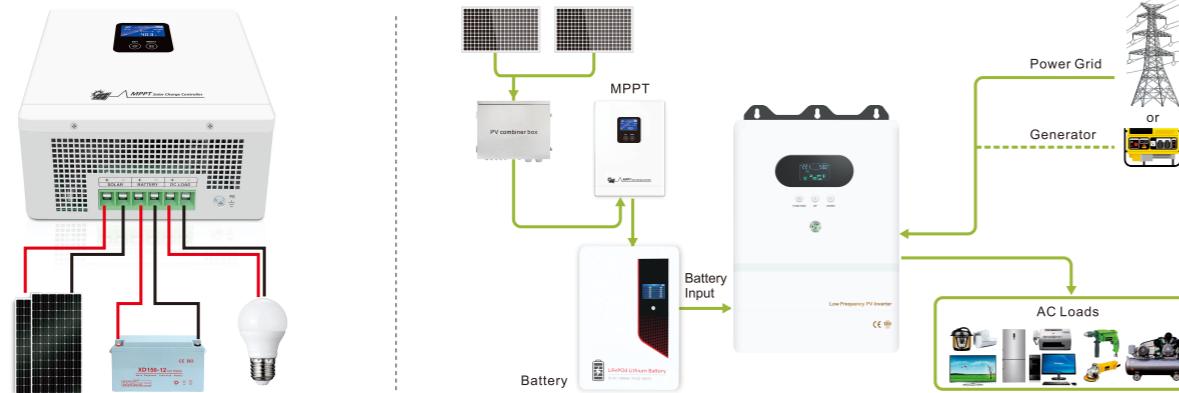

10A-100A

### Features

- Advanced MPPT tracking algorithm, with tracking efficiency up to 99%.
- LCD graphic display of photovoltaic power generation data and simulation of power generation process.
- Multiple load working modes can be set to adapt to different working occasions.
- Ultra wide photovoltaic input voltage range, more convenient system configuration.
- It supports a variety of lead-acid batteries and lithium batteries, and users can customize the charging and discharging parameters; Users are more flexible and convenient to use.
- Lithium battery activation function.
- Full range of electronic protection functions: battery anti reverse connection, PV anti reverse connection, charging over-current, DC output over-current, over temperature, over-voltage and undervoltage protection.
- Intelligent battery management function, extending battery life.
- RS485 communication interface (Mod Bus protocol) and mobile phone APP are convenient for users to integrate and manage.
